GETFRESHSMOOTHIES

we love smoothies

Freshly picked fruit, immediately flash frozen to provide the freshest (yes, according to Birds Eye, frozen is fresher than fresh!) portions of fruit perfectly mixed and presented in a transparent plastic pouch, ready for you to blend with 200ml of your favourite juice, yoghurt or even ice cream, to give you a perfect 10oz serving of fresh fruit smoothie. We even supply blenders with your first order - at no charge to you of course!

Excellent point of sale with menu's, table cards and posters to ensure your customer is very aware that you sell the best smoothies in town.

We genuinely want you to succeed with this range, so take advantage of our sale-or-return promise, to eliminate any risk!
